

### EQUALIZERCM'S SOLUTIONS

- Consulting
- Billing and Collections
- Coding
- Credentialing
- Extended Business Office Services
- Insurance Verification
- RCM Automation

When a Federally Qualified Health Center (FQHC) approached EqualizeRCM (ERCM) recently, they had some projects that needed to be done. They did not need to outsource their entire Revenue Cycle Management function, but they wanted help on some projects that their staff did not have the time, nor necessarily the expertise to take on.

One of several projects that ERCM undertook was to take a large group of claims that required Allscripts expertise and get them properly processed before the Timely Filing Limit (TFL) deadline, which was rapidly approaching.

After customizing a solution that fit within the client's budget and processes, the EqualizeRCM team sprang into action. Within days the team was completely trained with nuances of the client's processes, and the necessary coding and verification entry work was completed, allowing the claims to be submitted rapidly.

**The EqualizeRCM team's work resulted in a payment of \$87,000 in claims that the FQHC did not expect to ever be delivered.**

EqualizeRCM customizes every solution for every customer including the manner of payment for the services. We have a staff dedicated specifically to the FQHC marketplace, who is well educated on the specific issues that FQHC's must deal with. If you need a full staff, FTEs, or a project to tackle the most difficult aspects of your revenue cycle management, we can deliver it for you with results that produce fantastic Returns on Investment.

Call today at **(704) 560-6399** or email [Wilbur.Williams@EqualizeRCM.com](mailto:Wilbur.Williams@EqualizeRCM.com). We are here to help.
